Hi Klara and Maxie,

sorry it is my fault for this wrong suggestion. I forgot the policy on Math Lab for TAs.

Best,
Han.

Subject: Re: Math 3012 Section B Homework Assignments?

Hi all,

Math lab is open to all students, so we do expect TAs to provide walk-in help to students who are not in their section.

Best,
Klara

Han,

What about regrading the problems? Can you cover for me based on the rubric?

Maxie

Hi Maxie,

I see. It is nice but not necessary though. Maybe it is better to hold virtual office hour on Teams, so only students in our sections have access. My impression is, since it is not a coordinate course, you may end up spending much more time on this. If you still want to, I will send an email to the instructor in section B.

Best,
Han.

Subject: Math 3012 Section B Homework Assignments?

Dr. Han,

I held my first virtual office hours this evening after being out sick last week (Ms. Reikes is aware of the situation). Both attendees were from Math 3012 Section B. I told them that I am happy to help as best as I can despite being the grader for Sections A and C. Can you find a way to add me to the canvas course for section B so I can at least get access to their homework assignments each week? It seems like that section is an honors section (I presume) because their homework is substantially more intensive than A and C upon inspection.

Thanks.

Maxie
